August 26, 2020

Dear Families,

Although we cannot share access to our courses beforehand because of copyright issue, here is an information site online that is similar to what will be offered to your students.

Go to <https://www.flvs.net/>

Click View Our Courses.

Click Elementary, Middle School, or High School depending on your student's grade.

For elementary, click Try a Sample Lesson.

For middle school and high school, click the content area you would like to explore.

Watch the video for an overview.

Above the video, click Course Previews and Video Links.

You can explore some courses, but there are some broken links.

Also, Student/Family Orientation sessions will be sponsored by the West Virginia Department of Education on the following dates, using the following links:

[Student Orientation - Tuesday, September 1st at 2:00-3:00pm](#)

[Student Orientation - Wednesday, September 2nd at 10:00-11:00am](#)

[Student Orientation – Thursday, September 3rd at 7:00-8:00pm](#)

To access the TEAMS Live sessions your children will have to know their school email and password. If you need this information, please contact your child's face to face school or email Mary Ann Triplett at matriple@k12.wv.us and try to access TEAMS before time for the meeting in case you need to download the app.

If you have additional questions or concerns, please email matriple@k12.wv.us

Thank you for your patience. We will continue to post updates at <http://claycountyschools.org> as information becomes available.

Sincerely,
Joe Paxton, Superintendent
