

CTE/Enrichment Camp

Summer 2024

June 17th – July 25th

Come Join Us for a Load of Fun!

Dear Parent/Guardian:

Clay County Schools will once again be offering a Career and Technical Education Camp and an Enrichment Camp for students currently in Grades 6-9 as part of its summer program.

Important to Know:

Camps will take place from June 17th through July 25th, Monday through Thursday at Clay County High School. Times are 8:00 A.M. – 2:30 P.M.

- Morning and afternoon sessions are available.
- Breakfast and lunch will be provided on site.
- Students are not obligated to attend every week, but some sessions do continue from one week to the next.
- Transportation will be provided (see included Activity Bus Schedule).

How to Enroll Your Child:

- Complete the attached Registration Form/Session Choice Form. Return the completed form to your child's school by Wednesday, May 22nd.
- Have your child mark and keep the Session Descriptions page, so he/she will know when their chosen sessions are offered.

Clay County Schools CTE/Enrichment Camp Session Descriptions

Students should choose one (1) morning session and one (1) afternoon session for each week they plan to attend. Mark what interests you and keep this form for yourself.

Week of June 17th – 18th

Morning

Welding with Dwayne Walker. Students will learn basic welding skills in this session.

Watercolors with Sandra King. Students will learn watercolor techniques in color mixing, how to apply paint in washes, and other techniques to create landscape paintings.

Tye Dye with Jamie Tanner. Enjoy the art of Tye Dying and creating your own Tye Dye designs.

Earring Designs/Creations with Holly Nine. Students will design and create their own earrings.

Wreath Making with Kristian Stone. Students will enjoy the art of making various types of wreaths that they can decorate with or give as gifts.

Plant Health and Wildflowers with Melody Hubbard and Alexis Gilliland. Students will learn how to track plant health and plant wildflowers/sunflowers.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

Entomology and the Creatures Around Us with Patrick Shepherd. Learn about insects and other creatures around you. It's a fascinating world that you will explore.

Introduction to Forensic Science with Shyanne Lane. Like to solve puzzles and crime mysteries? Would you like to be a crime detective? Then, this session and the rest of the forensic science sessions are for you.

Afternoon

Tye Dye with Jamie Tanner. Enjoy the art of Tye Dying and creating your own Tye Dye designs.

Plant Health and Wildflowers with Melody Hubbard and Alexis Gilliland. Students will learn how to track plant health and plant wildflowers/sunflowers.

Wreath Making with Kristian Stone. Students will enjoy the art of making various types of wreaths that they can decorate with or give as gifts.

“Lure Them In” with Allen Hamrick. Students will make inline spinner baits for trout, bass, and muskie. At the end of the fishing lure sessions, you will get a chance to test them out.

Fingerprinting with Shyanne Lane. Learn how to take fingerprints and how they are used to solve crimes and in identification of individuals.

Week of June 24th – 27th

Morning

Hunter Safety Education Course for 7th and 8th Grade Students with Stuart Simms.

Students will learn about hunter safety and earn their safety education certificate. Course is both morning and afternoon sessions of June 24th and 25th.

Welding with Dwayne Walker. Students will learn basic welding skills in this session.

Entomology with Patrick Shepherd. Learn about insects and other creatures around you. It's a fascinating world that you will explore.

Pastel Art with Sandra King. Students will learn paint-applying techniques for pastels and will complete a step-by-step pastel piece of artwork.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

What's a Vet Tech? with Hali Simmons. This class will consist of hands-on activities. Students will learn about what a Vet Tech's duties and roles that they have in the care of our loveable pets. ** Session not available on Monday, June 24th.

Ocean Life and Ocean Craft with Melody Hubbard and Alexis Gilliland. Learn about ocean life and geology. Ocean activity.

It's a Charm! Make a charm necklace with Holly Nine. Students will design and create their own charm necklaces.

Macrame with Kristian Stone. Students will learn the art of macrame and create a product using this skill.

Entomology and the Creatures Around Us with Patrick Shepherd. Learn about insects and other creatures around you. It's a fascinating world that you will explore.

Tye Dye with Jamie Tanner. Enjoy the art of Tye Dying and creating your own Tye Dye designs.

Who's Walking in Those Shoes? Footwear casting with Shyanne Lane. Ideally, footprints at a crime scene can lead investigators to the person who made them. An impression can tell a lot about the shoe and the person wearing it.

Baking and Pastry with Julie Greenlee. Students will become familiar with the kitchen and bake a delicious treat!

Afternoon

Hunter Safety Education Course for 7th and 8th Grade Students with Stuart Simms.

Students will learn about hunter safety and earn their safety education certificate. Course is both morning and afternoon sessions of June 24th and 25th.

Tye Dye with Jamie Tanner. Enjoy the art of Tye Dying and creating your own Tye Dye designs.

Ocean Life and Geodes with Melody Hubbard and Alexis Gilliland. Learn about ocean life and geology. What is a geode? Find out when you crack one open.

Macrame with Kristian Stone. Students will learn the art of macrame and create a product using this skill.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

"Lure Them In" with Allen Hamrick. Students will make inline spinner baits for trout, bass, and muskie. At the end of the fishing lure sessions, you will get a chance to test them out.

Document Examination with Shyanne Lane. Interested in working in law enforcement or being a Forensic science detective? Learn how to look for clues in solving crime cases from documents in a case.

Week of July 1st- 3rd

Morning

Acrylic Painting with Sandra King. Students will learn about acrylic painting using printing techniques on paper and collage.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

DNA Evidence with Shyanne Lane. What trails do you leave behind with DNA? Learn how DNA is used to solve crimes and see if you are up to the task of solving a crime with the skills you learn about DNA.

Drones with Beth Hubbard and CMI. Learn how to build a drone and enjoy flying drones as well. Up for competition? Get a head start on your flying skills and you could become part of a competition team at the middle school and the high School. ***July 3rd Only**

Woodburning with Jamie Tanner. Create and design art work using the art of woodburning.

Elk and Nature with Melody Hubbard and Alexis Gilliland. Students will learn about appreciating nature and what it has to offer.

“Brace Yourself” with Holly Nine. Students will learn the art of making clay bead bracelets.

Woodburning/Gel with Kristian Stone. Students will create artwork using the method of woodburning with gel.

Entomology and the Creatures Around Us with Patrick Shepherd. Learn about insects and other creatures around you. It's a fascinating world that you will explore.

Afternoon

Woodburning with Jamie Tanner. Create and design artwork using the art of woodburning.

Elk and Nature with Melody Hubbard and Alexis Gilliland. Students will learn about appreciating nature and what it has to offer. Fun and Crafts.

Woodburning/Gel with Kristian Stone. Students will create artwork using the method of woodburning with gel.

Mixed Media Painting with Sandy King. Students will learn about and create art using pastels, watercolor, and glue collage.

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

Leather Crafts with Ronnie Hamrick. Students will learn how to make Native American leather crafts, bracelets and more!

Forensic Anthropology with Shyanne Lane. This session teaches you how to use forensic anthropology to solve crimes, which will be quite useful when asked to solve a crime at the end of summer camp.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

Drones with Beth Hubbard. Learn how to build a drone and enjoy flying drones as well. Up for competition? Get a head start on your flying skills and you could become part of a competition team at the middle school and the high School. ***July 3rd Only**

Week of July 8th – 11th

Morning

Acrylic Painting on Canvas Paper with Sandra King. Students will create acrylic paintings on canvas paper.

Woodburning with Jamie Tanner. Create and design artwork using the art of woodburning.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

Entomology and the Creatures Around Us with Patrick Shepherd. Learn about insects and other creatures around you. It's a fascinating world that you will explore.

Careers and Jobs with Brian Howard. Brian Howard from the Mid Ohio Valley Workforce Development Board will be present to talk to students about jobs and careers.

*****July 9th and 10th only.

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking

trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

Key to Having Fun with Holly Nine. Students will handcraft their own keychains.

Light up the room with Kristian Stone. Students will learn how to make their own scented candles.

Forensic Entomology with Shyanne Lane. Hope you aren't skittish or "bugged" out about this part of forensic science. Learn about how you can use entomology to solve crime cases. Study the insects that feed on corpses to solve crimes.

Tradition of Hunting, Flora and Fauna with Melody Hubbard and Alexis Gilliland.

Students will discover the tradition of hunting and enjoy a crafty time.

Drones with Beth Hubbard. Learn how to build a drone and enjoy flying drones as well. Up for competition? Get a head start on your flying skills and you could become part of a competition team at the middle school and the high School. ***July 10th Only**

Afternoon

Woodburning with Jamie Tanner. Create and design artwork using the art of woodburning.

Tradition of Hunting, Flora and Fauna with Melody Hubbard and Alexis Gilliland.

Students will discover the tradition of hunting and enjoy a crafty time. Making and painting bird houses.

Light up the room with Kristian Stone. Students will learn how to make their own scented candles.

Careers and Jobs with Brian Howard. Brian Howard from the Mid Ohio Valley Workforce Development Board will be present to talk to students about jobs and careers.

*****July 9th and 10th only.

Drones with Beth Hubbard. Learn how to build a drone and enjoy flying drones as well. Up for competition? Get a head start on your flying skills and you could become part of a competition team at the middle school and the high School. ***July 10th Only**

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

Leather Crafts with Ronnie Hamrick. Students will learn how to make Native American leather crafts, bracelets and more!

How Tech Savy Are You? Digital Forensics with Shyanne Lane. Learn how investigators/detectives use digital evidence to solve cybercrimes.

Friends and Fun with Hali Simmons. Students will have to attend to find out what fun things happen in this session. *** Not available on Monday, July 8th.

Week of July 15th – 18th

Morning

Acrylic Painting with Sandra King. Students will learn about acrylic painting to produce works on canvas and canvas panels.

“It’s a Cinch!” with Jamie Tanner. Learn the art of creating cinch pots with the touch of your hands

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you’re interested in basketball, or just want to get out from behind a desk, this session is for you.

Entomology and the Creatures Around Us with Patrick Shepherd. Learn about insects and other creatures around you. It’s a fascinating world that you will explore.

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

Handwriting Analysis with Shyanne Lane. Handwriting analysis fits into the area of forensic science by inspecting handwriting slants, rounded letters and more to determine if someone has altered or forged a document. You might be surprised how often this is used- ransom note, or hall pass that the principal suspects being forged!

Drones with Beth Hubbard. Learn how to build a drone and enjoy flying drones as well. Up for competition? Get a head start on your flying skills and you could become part of a competition team at the middle school and the high School. * July 17th Only

Flora, Fauna, Black Bear and Trout with Melody Hubbard and Alexis Gilliland. Students will learn about flora, fauna, black bears, and trout. Crafty activities are involved in this session.

Leather Necklaces with Holly Nine. Students will design and create leather necklaces.

Lotion Bars with Kristian Stone. Students will learn how to make lotion bars.

Afternoon

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

The Key to Music with Ronnie Hamrick. Learning to play chords and create music on keyboards. It will be an afternoon filled with music.

Put on Your Detective's Hat! Forensic Case Study with Shyanne Lane. Begin using your skill learned in the previous weeks' sessions to solve a crime!

Drones with Beth Hubbard. Learn how to build a drone and enjoy flying drones as well. Up for competition? Get a head start on your flying skills and you could become part of a competition team at the middle school and the high School. * July 17th Only

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

Henna art with Jamie Tanner. Explore the ancient art form of Henna.

Flora, Fauna, Black Bear and Trout with Melody Hubbard and Alexis Gilliland. Students will learn about flora, fauna, black bears and trout. Crafty activities are involved in this session - painting fish, black bear craft, and windchimes.

Lotion Bars with Kristian Stone. Students will learn how to make lotion bars.

Week of July 22nd – 25th

Morning

Henna art with Jamie Tanner. Explore the ancient art form of Henna.

Agriculture! Food science, animals, soils, natural resources, and forestry! With Kelsey McFarland. Use your 5 senses to explore agriculture! Food science, animals, soils, natural resources, and forestry!

Acrylic Poured Painting on Canvas with Sandra King. Students will learn about acrylic painting using printing techniques on paper and collage.

The Tradition of Fishing and Camping with Melody Hubbard and Alexis Gilliland.

Students will be learning about fishing and camping.

Metal Hair Clips/Decorating with Holly Nine. Students will design their own hair clips.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

Entomology and the Creatures Around Us with Patrick Shepherd. Learn about insects and other creatures around you. It's a fascinating world that you will explore.

Air Fresheners with Kristian Stone. Students will learn how to make air fresheners.

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

Crime Scene Reconstruction with Shyanne Lane. Reconstruct the scene of the crime and use your skill to solve the case.

More than Cows and Plows with Kelsey McFarland. Use your 5 senses to explore agriculture! Food science, animals, soils, natural resources, and forestry!

Afternoon

Henna art with Jamie Tanner. Explore the ancient art form of Henna.

Wood Carving with Allen Hamrick. Meet the Sasquatch on the Elk River Trail. Learn how to create a statue out of wood. The statue of the Sasquatch will be placed on the walking trail for all visitors to our area to enjoy if they dare! For the faint of heart, wooden benches will also be created for visitors to take a rest.

The Key to Music with Ronnie Hamrick. Learning to play chords and create music on keyboards. It will be an afternoon filled with music.

Crime Scene Investigation with Shyanne Lane. Solve the crime that you have been preparing during the CTE/Enrichment camp. You will now find out if you can graduate to CTE Camp Detective.

The Tradition of Fishing and Camping with Melody Hubbard and Alexis Gilliland.

Students will be learning about fishing and camping. Fish craft, ocean craft, and making carabiners.

Air Fresheners with Kristian Stone. Students will learn how to make air fresheners.

Basketball with Drew Belt. This session will allow students to get active while playing the game of basketball. Participate in simple basketball drills and friendly competitions while also learning about the rules of the sport. Students will also learn about the importance of teamwork and cooperation, on and off the court. So, if you're interested in basketball, or just want to get out from behind a desk, this session is for you.

***Please Be Sure to Return the Session Choice
and Registration Form by May 29, 2024**

Registration forms and session forms may be returned to the student's school or emailed to crystal.gibson@k12.wv.us

Session Choice Form

Return this form to your teacher, along with your Registration Form. Remember, choose only one (1) session for morning and one (1) session for afternoon.

Week of June 17-18

Morning

- Wreath Making with Kristian Stone.*
- Welding with Dwayne Walker.*
- Earring Making with Holly Nine.*
- Water Color Painting with Sandra King.*
- Tye Dye with Jamie Tanner.*
