## Climate Survey

### 2022-2023

In December 2011, the West Virginia Board of Education enacted Expected Behaviors in Safe and Supportive Schools to provide a framework for developing optimal learning conditions for both students and school staff.

The information provided by the survey data will help guide district and school efforts to promote safety, enhance learning supports, improve student achievement, and reduce health risks that stand as barriers to learning.

Following are instructions for completing the voluntary survey for students, parents / caregivers, and staff of Clay County Schools. Please keep in mind that your participation is very important. Your responses are anonymous and confidential, and you are not required to answer any questions that you do not want to. You may stop taking the survey at any time.

To take the survey, navigate your browser to <http://claycountyschools.org> and select the green "2022-2023 Climate Survey" button. Open the link and select either the Student, Parent, or Staff survey particular to your location.

If you have questions about the survey, please contact your school for more information.

#### Student Instruction:

Welcome to the School Survey for Students. Thank you for participating. Your participation is voluntary. You do not have to complete this survey. You may choose not to answer any questions you do not want to answer, and you may stop at any time. If you have questions, please ask your teacher or other adult in the room with you. To continue, please login by using the information provided below and clicking the "Next" button.

### Staff Instructions:

You are asked to complete an online survey about school climate—learning and teaching/working conditions—to help guide school improvement efforts. It is an opportunity to communicate your perceptions about fundamental learning/working supports and barriers at this school. The purpose of the survey is to obtain staff perceptions of the overall school climate as it relates to staff and student well-being, and conditions for learning and teaching, including student behavior and attitudes, and school programs and policies. Similar questions are being asked of students and parents. It also includes questions about the teaching and working environment at the school, including staff collegiality, involvement in decision-making, school supports, and professional development needs. The survey should be completed by all staff, especially general and special education teachers and other personnel working in the areas of prevention, student health, and safety.

You may complete the survey from any computer with an internet connection, whether at school, at home, or at another location.

When you log onto the survey you will see explanatory information about the survey and the important information below as to your rights as a survey participant:
